Attn: Deacons  
75 Walkover St., P.O. Box 10610  
Thunder Bay, ON P7B 6V1  
Canada

Dear Hannu & Deacons,

Thank you for working through Lifewater Canada to help African people obtain safe drinking water and improved sanitation. I am writing to update you on how your recent generous collection gifts have been used.

We wired your money to Lifewater's team of local men and women in Liberia. The heavy rains over the past 7 months made roads impassable and slowed their work. However, the team recently used your gift to help complete building the new operations base that Hank, Archie and the other volunteers started last year.

To see first hand what a life saving difference your support makes, please go to: [http://www.lifewater.ca/data/welldata\\_search.php](http://www.lifewater.ca/data/welldata_search.php) and search for "Bethlehem" to view details about the capacity building project that was made possible by your donations: Lifewater Project #L09-E012 (Security System & DC Back-up Power).

We are pleased to enclose a certificate for your project sponsorship. We encourage you to place it in an 8 1/2" x 11" frame of your choice and display it in the church to encourage others to help those in need. Thank-you!

Thanks again for reaching out and making a difference in this world by supporting Lifewater Canada.

Yours in Christ,

*Jim Gehrels*

Jim Gehrels  
President

*Thanks for your generous gifts.  
We are really grateful for this  
new security system. We will  
be much safer because of your  
gift.*

*Thanks Jim & Lynda*
